Important Work of Travel in China, etc.

Across Chryse: Being the Narrative of a Journey of Exploration through the South China Border Lands, from Canton to Mandalay. By ARCHIBALD R. COLQUHOUN, Executive Engineer Indian Public Works, F.R.G.S., A.M. Inst. C.E. With three original maps, and about 300 illustrations, mostly from original photographs and sketches. In 2 vols., 8vo, cloth extra, \$7.50.

"No book could possibly appear more opportunely than these interesting volumes, in which Mr. Archibald Colquhoun describes his remarkable journey from Canton to Mandalay. He is the latest 'pioneer of commerce' in the border lands of the neighboring empires of India and China, and in some respects his work will be admitted to have been more remarkable than any preceding exploration in that part of China. He followed a new line of country, part of which had not been previously traversed by a European. The question of direct land communication between India and China is one to which the Governments of neither of those countries can feel indifference, and the natural progress of events will be indubitably hastened by the action of the French in Annam. His narrative is so fresh and graphic that it is needless to bespeak for it the attention it will readily command."—*Times.*
